“ May ginintuang kinabukasan ang nagkakaisang mamamayan ”

Keeping the Philippines in touch,
then, now
and into the future...

PLDT

The Telecommunications Company

The Filipino entered the modern world with a persistent urge to keep in touch. PLDT has been with him through the years. Sharing his dreams. His struggles. Giving him the facility to be aware. To be involved. To communicate.

Today, the Filipino is able to reach out—beyond his home, his neighborhood, his town—to the nation at large. And to the world around him.

PLDT has kept in step with each change in telecommunications

technology. From manual to automatic. From mechanical to electronic. From analog to digital.

The total number of PLDT phones now comes close to a million. And the Filipino can make direct calls to 117 countries around the world.

PLDT has also provided leased lines for telex communications and satellite feeds throughout the world. Companies are now able to move data quickly along dedicated PLDT lines, using fax machines and computer modems.

With the X-5 program, half a million state-of-the-art digital lines will be installed between now and 1992. And the Filipino's messages to the world will be carried, fast and clear, by submarine fiber optic cables.

The nation thus stands ready to ride the wave of the future: integrated digital communications.

This forms part of PLDT's commitment. To make the Philippines one island. And to give the Filipino an active role in the world's telecommunity.

The Telecommunications Company

Message

I am pleased to commend the Quezon City Consultative Council for hosting "Gintong Parangal '89" which aims to honor retirees of the city government. It is a noble gesture to pay tribute to those who spent the best years of their lives in the service of the people of Quezon City.

May I take this opportunity also to commend the Council for having been an eloquent and effective mouthpiece of the rank and file employees of the city government. It has been instrumental in promoting harmonious relations between them and their office chiefs and department heads and, above all, with the Mayor's Office.

Through the Council, we in the higher ranks are always aware of their needs, their problems, and their aspirations thereby enabling us to take the necessary measures to meet them.

There is still much room for improvement in the delivery of public service. I am banking on the Council to contribute to that improvement by promoting further the loyalty and cooperation of the employees it represents.

Gen Simon

Message

The day of the celebration was inevitable. The 50th year of our City's Founding comes only once.

Committees were created to handle particular fields of presentation. Project proposals were formulated and submitted for approval. Those that obtained the nod of the committees were finalized and subsequently implemented, the result – a resounding success.

But after a long and tedious work, we need to relax and unwind. It is a refreshing note to learn that the Quezon City Consultative Council is hosting "*Gintong Parangal '89*", a dinner dance which will serve as the culminating activity of the two-month long Golden Anniversary Celebration of this premier City. Aside from the glitters it will showcase, this event will promote camaraderie and cement the unity that binds the moving spirit responsible in the achievements realized in the observance of the Foundation Day.

I enjoin all Local Officials, employees, as well as the constituents, to take an active part in this occasion and join hands in a toast for prosperity.

VICENTE C. SOTTO, III
Vice Mayor

QUEZON CITY CONSULTATIVE COUNCIL

Message

Today, October 12, 1989, marks the GOLDEN JUBILEE ANNIVERSARY of the founding of our beloved QUEZON CITY. It is with great pleasure in extending my warmest welcome and greetings to all concerned.

During the past fifty (50) years, our people has witnessed the remarkable transformation of Quezon City from a humble, quiet urban community, built on a vast expanse of cogonal lands to a healthy, robust and sprawling metropolis comparable with the best cities of Asia.

Sustained economic development and growth which are the cornerstones of the dynamic leadership of our good Mayor, Hon. Brigido R. Simon, Jr., shall be resolutely pursued and maintained.

As we celebrate this historic occasion, let us always remember the noble objectives set up by her founding father, the late President of the Commonwealth of the Philippines, Manuel L. Quezon.

Quezon City, October 12, 1989.

ISIDRO T. MANIKIS
Chairman
Q.C. Consultative Council

“TOGETHER WE DO IT BETTER”

THE QUEZON CITY CONSULTATIVE COUNCIL

PROPERTY OF
QUEZON CITY PUBLIC LIBRARY

MAIN OFFICE

The Quezon City Consultative Council was created by virtue of Executive Order No. 14 issued on July 7, 1987 by Mayor Brigido R. Simon, Jr. The Mayor was prompted to issue the Order due to the following reasons:

1. The rising expectations of the people, particularly the city employees, for their economic and social upliftment necessitated regular consultations with employees' representatives;
2. The upsurge of rallies and protest actions against the city administration needed a consultative body in which complaints and grievances of city government employees' could be resolved in a peaceful manner.

The Quezon City Consultative Council was organized with the help of Mr. Rolando P. Montiel, then Sr. Executive Assistant to the Mayor and Officer-In-Charge of the General Services Office.

Any employee who holds a permanent, temporary, casual or contractual appointment is eligible for membership in the Council provided he is below the level of Assistant Department or Office Head and has served the Quezon City Government continuously for at least one (1) year.

Each department or office is entitled to one representative for every one hundred employees; however, an office with less than one hundred employees shall be entitled to one (1) representative. The representative shall be chosen by the employees of the department or office themselves either by (a) *viva voce* (b) secret balloting, or (c) a resolution.

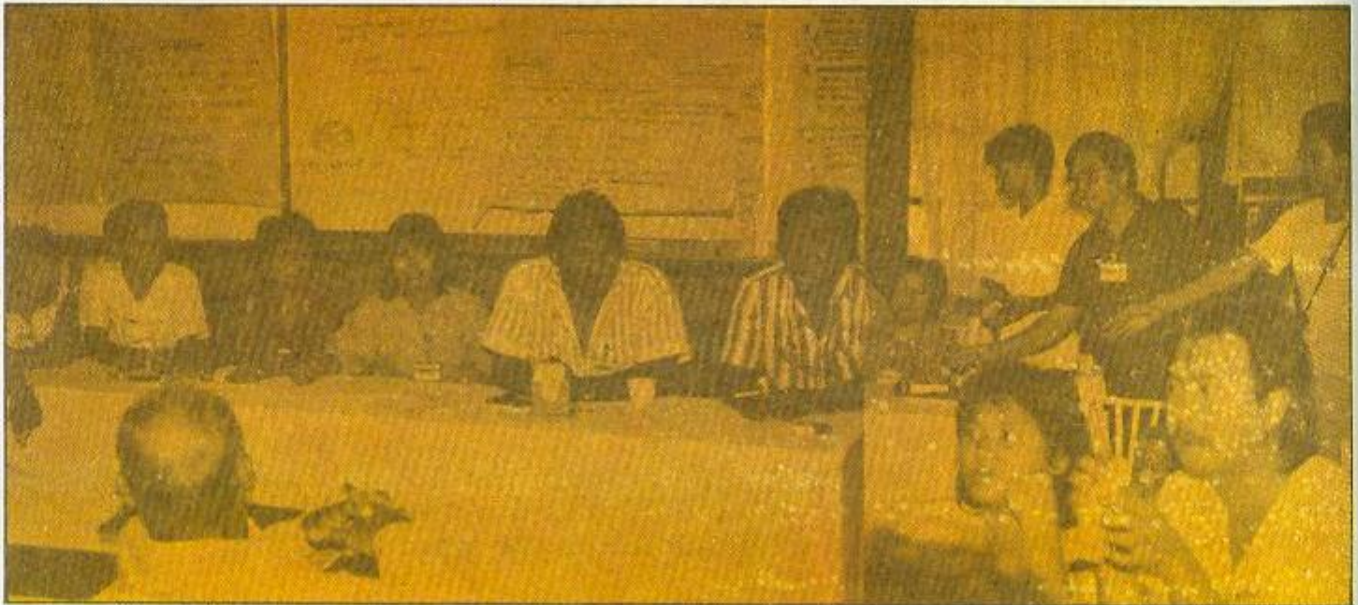

The Council has the following duties and functions:

1. Conduct monthly dialogs with the City Mayor to discuss issues affecting the employees' legitimate and collective interests and aspirations within a democratic framework;
2. Formulate rules and regulations on mass protests carried within the Quezon City Hall building and premises;
3. Recommend to the Mayor measures/policies that will enhance employer-employee relationship;
4. Render periodic reports and submit recommendations to the City Mayor for evaluation and/or implementations;
5. Create standing committee that may be necessary in the pursuit of its functions and duties.

On September 2 to 5, 1987 some 70 members of the Consultative Council representing 7,000 employees of the City Agency held a three-day live-in working conference at the Makiling Country Resort in Calamba, Laguna.

In the conference it was agreed that the members will limit their functions and purposes to what is enunciated in the Executive Order No. 14 creating the Council.

Mayor Brigido R. Simon, Jr. in his inspirational talk, stressed that the Council is aimed at providing an effective mechanism or conduct between employees and the government. He also asked the members to wear “two hats”, one as an employee and the other as a Quezon City resident.

He also emphasized that the main rationale of the Council is to provide an effective voice or mechanism for what may be termed as “employees power”. He said that the employees need not express their grievances in the streets or in public places but in the sobriety of a conference table.

During the conference, participants were oriented on how the city government operates and their corresponding roles. They also discussed new and existing government laws for their guidance and information. Participants were also taught how to select, program and properly implement activities for efficient public services

The Consultative Council elected the following officers:

Chairman	:	Mr. Isidro T. Manikis
Vice Chairman	:	Atty. Manuel Dominguez
Secretary General	:	Ms. Lily Fe V. Agunod
Legal & Complaint	:	Fiscal Monina Zeñarosa
Career & Human Resources	:	Dr. Ruel Garcia
Budget & Finance	:	Ms. Violeta Portillo
Plans & Programming	:	Ms. Julie Afos

Cognizant of its role as the employees’ representative body, the QCCC spearheaded laudable projects such as the raffling off of some 471 lots located at the Quezon City General Hospital Compound to QC Government Employees (see related story on page 15). Another project was a performance audit conducted to assess whether an employee is competent, dedicated, corrupt, etc. The employees responded favorably and candidly answered the survey questionnaires which subsequently determined and helped solve some of their problems and grievances.

The early approval of the Ordinance granting additional cost of living allowance introduced by Councilors Herrera and Galarpe was also influenced on strong representations made by the QCCC.

Financial assistance in the amount of One Thousand Pesos (P1,000.00) for every fire victim and Two Thousand Pesos (P2,000.00) for each deceased employee as death benefit were also extended. This assistance came from QCCC's pet project – the Quezon City Welfare Foundation. The seed money for this Foundation was raised by the "1988 Pa-Raffle".

Meanwhile, the QCCC continuously plans and draw up policies and programs geared toward enhancing the welfare of the City government's employees.

On the occasion of the QC Golden Jubilee it has been tasked with a wider responsibility including the putting up of the QCCC Gintong Parangal Souvenir Program. The "Gintong Parangal" event entails other duties among which are: the preparations for testimonial dinner as a fitting culmination of the anniversary rites and the honoring of Quezon City's prominent leaders in the last 50 years highlighting the nights affair. The legwork and research, indeed, contributed to the success of the Capital City's Golden Jubilee Celebration.

QUEZON CITY EMPLOYEES HOUSING PROJECT

Never has there been a time when a housing project intended for the benefits of Quezon City Hall employees come to reality as that of the present. Yet, it has always been a sincere desire by the city government to provide affordable housing projects not only for our homeless co-workers but also for our urban poor residents. Several plans, programs and other studies for low-cost mass housing project have been conceived but none ever came to fruition.

However, the assumption of Mayor Brigido R. Simon, Jr. as Officer-In-Charge of Quezon City in 1986 brought new hope among the homeless Quezon City residents like us. He immediately formed a technical staff to prepare a low cost social housing program for the city's homeless constituents.

Presently, the city government has three housing projects. One is the Barangay Manresa on-site Development Project which is undergoing construction. Another one, the biggest, is the Quezon City Social Housing Program in Payatas. The third one intended for both the City Hall employees and other Quezon City residents is the one located at the Quezon City General Hospital Compound. Several other housing projects have been proposed but rejected due to unaffordable prices and remote location. The city government has identified 66 Areas of priority development (APD).

The chosen site for employees housing project is the third one. This property with a total area of 77,548 square meters was purchased several years ago from the Colegio de San Jose Seminary on October 1986. Mayor Brigido R. Simon, Jr. assigned the newly elected members of Quezon City Consultative Council thru its Chairman, Mr. Isidro Manikis, to undertake the distribution of housing unit by raffle. A Housing Project Committee within the council was created designating Mr. Cecil T. Lim, a QCCC representative of the City Budget Office as its head.

A study was conducted on affordability cost, loanability of employess and salary statistics. National Home Mortgage Loan requirements, financing for construction, ocular investigation of the housing site and others, although not necessarily a part of their assignment, was also incorporated in the study. A final report was then submitted to the QCCC body including the raffle program containing among others the minimum qualification requirement. Deliberations were conducted during the regular and special meeting for the final approval of the various plans and program for the raffle. However, due to time constraint, the council agreed to recommend to the City Mayor the immediate holding of the raffle before the end of 1986 without waiting for the actual construction of the housing units. Notices for application in the housing program were circulated. The limited housing/lot units were distributed by quota system to the different offices/department proportionate to the total member of their permanent personnel. The raffle was finally conducted by the QCCC at City Hall lobby on Dec. 16, 1988 wherein the lucky winners were immediately handed their certificates.

A subsequent committee on housing was again created by the City Mayor which were composed of Mr. Isidro Manikis as chairman, Arch. Gerardo G. Magat as Vice-Chairman and Atty. Christian Valencia, Engr. Patricio Senador and Violeta C. Portillo as members. They were tasked to coordinate and implement this project. Among their accomplishment were the reconstitution of the title of the land, review of pricing, coordination with contractor, review of housing plan, coordination with the city council and others.

With the unwaivering support of the Quezon City council, a resolution was passed on November 10, 1988 formally approving the establishment of Quezon City Hall Housing Project. Another resolution was subsequently passed authorizing the City Mayor to negotiate for the construction of low-cost socialized housing project at Bgy. Bahay Toro, strategically located at the heart of the city. It is near the popular SM shopping center, several government agencies, schools, markets, parks and other social conveniences. The place is relatively more elevated than its surrounding areas making it flood-free. It has three exit roads, that lead to EDSA and to Congressional Ave.

Market value of lots in the area range from ₱1, 500 to ₱2,000 per sq. m. However, thru the City Mayor's intercession prices of lots for socialized housing will be subsidized by the city government for wider affordability. It shall be payable by installment thru the National Home Mortgage and Financing. This housing project is estimated to accomodate around 3,000 families.

There are two types of housing units being considered. The first type is a four-storey condominium building. Each unit will have an approximate floor area of 38 to 44 square meters open for sale to any qualified Quezon City resident. The other is the so-called Socialized Housing Project type costing around ₱80,000 per unit. It is intended for the Quezon City Hall employees who won the raffle and also for the actual occupants of the area. Each unit will have an estimated area of 32 sq. m. Unlike, the common type row-houses, around eight units are artistically clustered forming a compound. At the center is an access lane between front lawns also designed to serve as a strip that can be lined with trees or ornamental shrubs. Ecological balance and clean surrounding will be given emphasis. Durability and functional design are also given prime attention without sacrificing affordability of future tenants. As invisioned, the area will accoarded with basic facilities such as water from MWSS, lighting, eight concrete lanes, social hall, playground and others. For commuting convenience to and from the city hall, a public utility vehicle is being planned to be provided thru the help of the city government. With our meager resources on hand as mere City Hall employees, we expect the city government to continously develop the area. — *CECILIO LIM*

Mayor Simon during ground-breaking ceremonies of the QC Housing at the back of QC General Hospital.

GINTONG PARAMGAL '89

TRIBUTE TO OUR RETIREES

Today's commemoration of the Golden Anniversary of Quezon City evokes inspiring memories of the long and dedicated public career of our retired colleagues in the city government service. Their dedication and lofty vision contributed immensely to the development of a good, honest and efficient government for the people of Quezon City.

Our honorees for this year's awards stand out as model public servants in the history of QC government. Their uncompromising courage in fighting graft and corruption to improve efficiency in the service have not gone unwasted and unremembered.

They must have been inspired by the words of our founding father, the late President Manuel L. Quezon who said: "I served the country with hope and fortitude, certain that God never abandon a people who follows His unerring and guiding hand. May He give me light, strenght and courage evermore that I may not falter in the hour of service to my people".

Our honorees have left us a legacy of dedicated service to God, country and fellowmen. Their names and deed shall forever serve as jewels in the annals of our city's history. They are the following:

OUR LADY, QUEEN OF THE HOLY ROSARY
(Patron Saint of Quezon City)

The Blessed Virgin is venerated by the church under different titles or aspects of her role in the salvation of mankind worked out by Jesus Christ, Our Lord. Under the title of Queen of the Holy Rosary, she showed in many occasions her special love and protection for the Philippines. Since the Spanish times, she has showered favours to individuals as well as to the whole nation, because they have been faithful to the recitation of her rosary.

The almost four-century old image of the Blessed Virgin of the Holy Rosary, venerated in Sto. Domingo Church, Quezon City, is the center of the nationwide celebration of the "FEAST OF LA NAVAL." This feast, with its colorful novena and procession, was initiated because of the vow made by the beleaguered Armed Forces of the Philippines, mainly the naval forces, in so many battles with pirates, Chinese, English and Dutch who wanted to invade and occupy the Philippines. Notwithstanding the superiority in arms and numbers, these invaders were repulsed from our shores, more on the efficiency of fervent prayer than on the out-moded and meager logistics of the country. Thus, this venerable image of the Blessed Virgin came to be called, beside its title of "Queen of the Holy Rosary," the "Virgin of La Naval," the "Capitana," the "Almiranta," the "Patrona."

"LA NAVAL - QC'S PATRON SAINT."

WESPRO "COLD MIX" 308

RAIN OR SHINE

- Perfect solution for overlay and patching work.
- The only seal and repair material that can be used effectively in any weather condition rain or shine.
- Has great adhesion to both asphalt and concrete.
- Resistant to rain, salt, water, heat and cold and not subject to shrinkage.
- Can repair any size, shape or depth of potholes, cracks or depressions.
- Economical and has longer life compared to other overlay and patching materials.
- Covers a bigger area per metric ton which means cost savings.
- It is a good substitute for concrete.

WORKING CONFERENCE
SEPTEMBER 2-5, 87
QUEZON CITY GOVERNMENT

QUEZON CITY HYMN

(Words & Music by GEORGE M. CANSECO)

O Quezon City kong tahanan
Bukod tangi sa Maykapal
Halos higit sa'king magulang
Ikaw ang pinakamahal

Puso ko'y diwa, Quezon City
Atay sa'yo aking lungsod
Pangalawang ikahubut
Panata ko ang maglingkod

(Bridge)

Hindog hindi kita iiwan
Upang hindi na magbalik
Puso'y walang ibang bayan
Na higit pang mananabik

Kaya naman O Quezon City
Ang buhay ko'y sa'yo lahat
Walang bahid ng pagsisig
Kung hihingin mo kailan man

*Congratulations to
Quezon City*
